MINDANAO CONTAINER TERMINAL

An ICTSI Group Company

Official Advisory of Mindanao Container Terminal

12/17/2021	ADVISORY NO. 2021-038

To our Valued Industry Partners,

We would like to inform everyone that the Terminal experienced network interruption from our network service providers as an effect of the Typhoon Odette. We have shifted from manual processing to continuously accommodate container receiving. However, we are happy to inform everyone that the network connection of Globe is now back online. We can now start processing transactions for both container receiving and withdrawal.

Thank you for your usual support to MCT.
