

## Second Tranche Tariff Adjustment Implementation on January 1, 2026

### Advisory Reminder to All Port Users and Stakeholders

Mindanao International Container Terminal Services Inc. (MICTSI) would like to remind all stakeholders that the second tranche of tariff adjustments for the period 2025-2028 will take effect on January 1, 2026. This adjustment follows the Public Consultation held on January 15, 2025, and the announcement published in the Manila Bulletin on February 14, 2025.

Please be reminded of the following, effective January 1:

- New tariff rates will apply to all invoices
- New storage rates will apply to all container withdrawals

For your reference, the updated tariff rates for the second tranche are available on the Mindanao Container Terminal website: [\[/client-services/tariff-rates\]](#) Mindanao Container Terminal Tariff Rates.

We appreciate your attention to this matter and encourage all stakeholders to review the updated rates to ensure a smooth transition as we implement these adjustments next year.

Thank you for your cooperation.
