Please be informed that as part of the TOS Navis N4 System maintenance, we will be having a server patching activity on Sunday February 27 from 2100H to February 28, 2022, 0100H. Our system will be down momentarily. Hence, we will temporarily shift to manual processing during this time. We highly recommend our valued port users to plan their container withdrawal transactions so to ensure continuous and unhampered operation at the Port. We will revert to normal and full operation afterwards.

Thank you for your usual support and understanding.

Best regards,
